| Alberta Finch | Scott Hembrow | Caludia LeMaire |
| Walter Smith | Joan Dargie | |

**Kaley:**
Nicole stated that the funding that she mentioned last month is indeed a valid fund, established by impact fees from the Badger Hill development. It is designated for Kaley and Keyes. She will do a site walk with the Conservation Commission to look at additional funding from other sources (ie. Souhegan Water Shed Assn.) She is also scheduled to do a walk through with Bill Parker and St. Joe's Hospital on Friday to discuss the right of way or easement in the parking lot area.

**Concession**:
$1690.75 Total profit from Concessions last summer. Swim Team Profit: $220.89 = 2 movie nights – 4th of July – Home Swim meet – Rotary (5 events). The Commission agreed to transfer the money to the Swim Team line item. We tabled all other discussion on all concession stand issues until Joan can attend.

**Cameras:**
Nicole and Mary will look further into the camera vendor options and contact Simplex again. The BOS will have to make the final decision on how the impact $ is spent but we will move forward.

**Horse Shoe Club:**
Nicole reported that the light at the old Police Station was removed because there was a billing problem. It was an older, inefficient light. The Commission agreed that we would offer the Horse Shoe Club the opportunity to use the current space and if they want and we would assist in looking into lighting options. (portable lights etc.)
